HYDRO AERATION TECHNOLOGY™

IMPROVED CIRCULATION AND FILTRATION

Fine particles in water clump together and settle to the bottom of the pool during the aeration process, making it easier to filter and remove sediments through the filtration system. The improved filtration and circulation make the pool water healthier and more comfortable.

IMPROVED WATER CLARITY

By mixing air with water, the aeration process induces oxidation of iron and manganese, eliminating staining in water. The result is sparkling pool water that looks and feels great!

INCREASED NEGATIVE IONS AT THE WATER SURFACE

Increased negative ions have been proven to improve the air freshness around the pool as it removes air pollutants and neutralizes free radicals that affect air quality.

Intex® is proud to introduce our innovative Hydro Aeration Technology™ – transforming the Above Ground Pool industry, by bringing revolutionary water aeration techniques into your backyard above ground pool.

Precision engineered to fine tune our line of filtration systems, Hydro Aeration Technology™ has been incorporated into all our cartridge filter pumps, all sand filter pumps, and all combination filtration systems.

OVAL FRAME POOLS

THE VALUE OF AN EASY SET® POOL COMBINED WITH THE CLASSIC SHAPE OF A RECTANGULAR POOL!

For many consumers, a standard rectangular pool is their preferred choice. Intex oval shaped pools are a great bridge between Easy Set® and Rectangular Metal Frame pools, combining the benefits of both. It is quick and easy to assemble, with additional support from the frame, as well as an elongated shape to maximize the swimming area!

The frames are rust-resistant and assembled with snap-on joints, eliminating the need for tools. The collection comes in two popular and family-friendly sizes. Perfect for narrower backyards, or lap swimmers! Available in 18' x 10' x 42" (5.49m x 3.05m x 1.07m) and 20' x 12' x 48" (6.10m x 3.66m x 1.22m) sizes.

ULTRA FRAME™ POOLS

INTEX® ULTRA PREMIUM POOL LINE

These pools, with their unique frames, are stronger than traditional metal frame pools. Precision engineered locking system enhances the overall quality, durability, and stability of the pools. They're easier to assemble, because the shape allows the pieces to fit together so smoothly and securely that separate locking pins are not needed.

With a broad line of accessories, they are guaranteed to make pool ownership and maintenance easier and enjoyable.

## THE ULTRA FRAME™ COMES WITH THE ULTIMATE COMBINATION

For the ultimate combination of pool filtration, water sanitation, and convenience, these Ultra Frame™ pools come with our Krystal Clear™ Sand Filter Pump & Saltwater System Combo. No other system on the market combines the gentle, thorough, environmentally-sensitive filtration and sanitation properties of sand and salt.

Maintenance is incredibly easy since sand only needs routine backwashing and replacement every 5 years, and salt never needs replacement under normal conditions. To make daily operation even easier, the combo comes with a built-in 24-hour timer that runs the system automatically.

Efficient filtration is essential for a quality swim experience. Who wants to swim in a dirty pool?

Intex's line of pumps and cartridges guarantee a cleaner pool with:
• Powerful pumps in several of our most popular pool sets
• Filter cartridges with thicker, heavier paper and more pleats
• Water inlet jets for enhanced water flow back into the pool

The results will be faster water circulation, improved filtration, and best of all – a superior swim experience!

• Easy installation – just hook-up hoses and plug in
• Double insulated pump
• Air release valve for air trapped inside filter chamber
• Sediment flush valve at bottom of filter chamber (28635/28636/28633/28634)
• Auto timer for easier use (28635/28636/28633/28634), except 28636GS
• Conforms to UL/CSA standards (110-120V models)
• CE approved (220-240V models)
• TUV-GS approved (GS designation models)
• Shelf box

KRYSTAL CLEAR™ SAND FILTER PUMPS

Sand Filters are one of the most popular ways to keep pool water clean. Not only is it effective, it saves on cost and time since the sand needs replacement just once every five years – making the sand filter system one of the easiest to maintain. As an alternative, Intex Glass Filter Media (item# 29058) may also be used in place of conventional sand.

POOL SANITATION SYSTEMS

KRYSTAL CLEAR SALTWATER SYSTEM™

The ECO-friendly Poolwater Sanitizer

The Krystal Clear Saltwater System™ combines a unique two-stage technology to sanitize pool water.

First, an undetectable level of natural swimmer-safe chlorine is produced when environmentally friendly natural salt is added to pool water and passes through a titanium electrolytic cell during the filtration process. The result is soft, fresh, clean water without the potential harsh side effects of packaged pool chemicals.

Second, with the E.C.O. (electrocatalytic oxidation) process, water molecules are split into highly powerful oxidants which destroy organic contaminants such as bacteria and algae. The combination of these powerful oxidants with natural chlorine results in the strongest and safest pool water sanitation.

This second process, unique to the Intex Saltwater System, provides consumers with an important benefit. The process of E.C.O. is so effective, the amount of natural chlorine needed and generated by the system is reduced by approximately 60%. Which means that your customers not only get the great benefits of a saltwater system, they enjoy it with much less chlorine than other saltwater systems generate!

KRYSTAL CLEAR™ OZONE AND SALTWATER SYSTEM

Professionals Know That The Ultimate Pool Sanitation Method Is Ozone.

Only Ozone provides virtually complete, instantaneous, odorless, all-natural sanitation of pool water. Ozone eliminates bacteria over 3,000 times faster than chlorine. And because it has up to 100 times the oxidizing power of chlorine, it cleans pool water without the chemical smell that swimmers often associate with chlorine.

Intex has brought this powerful technology together with the benefits of our saltwater system to provide your customers with the very best in above ground pool sanitation. By combining the incredible sanitizing strength of ozone with the great swimming comfort that saltwater systems provide, your customers can enjoy a truly wonderful pool ownership and great swimming experience for years.

A totally effective, odorless, effortless, all natural solution to maintaining crystal clear, soft, clean pool water… from Intex!

COMBINATION FILTRATION & SANITATION SYSTEMS

KRYSTAL CLEAR™ POOLWATER SYSTEM

Sand Filters are one of the most desirable methods to keep pool water clear and sparkling. Not only does the all-natural, inexpensive sand do an excellent job of filtering the water, it needs replacement only once every five years, making sand filter the easiest maintenance filtration option on the market. As an alternative, Intex Glass Filter Media (item# 29058) may also be used in place of conventional sand.

Saltwater systems with E.C.O. (electrocatalytic oxidation) are known for their ability to keep pool water clean and safe, while eliminating the harshness of traditional packaged chlorine.

Intex has combined these two excellent systems into one product, providing above ground pool owners with ONE low cost, low maintenance system that will keep pools clean, safe, and comfortable for swimmers. Both systems are controlled automatically with one 24-hour timer to make daily operation carefree!
