INTRODUCTION

2018

The Intex Family of companies is dedicated to developing and manufacturing the highest quality products that not only provide the best value in price, but are innovative, fun and exciting. Backed by excellent Customer Service, Intex also provides first-rate after sales support. The 100+ independently owned and locally operated companies that make up the Intex Family, all embrace this commitment to quality, service and price and are committed to working together to ensure the satisfaction of the families and individuals across the globe who enjoy these products. This has become the hallmark of Intex around the world.

As a true industry leader, Intex boasts state of the art factories, trained and motivated people, products that meet rigorous testing requirements, and a Customer Service organization that will go extra lengths to ensure our customers are satisfied and happy with their purchases.

When you purchase an Intex product you can be confident that you are buying the best product, at the best price, backed by the best Customer Service organization in the industry.

Intex is committed to delivering top quality products at a great value with the backing of a responsive Customer Service organization. Our Airbed line is unmatched for breadth and beauty. With the introduction of our new innovative, patented Fiber-Tech™ Technology, we have engineered a way to combine durability with exceptional comfort, creating airbeds that rival the stability, support and comfort of a traditional mattress. The “Dura-Beam®” series utilizes superior Fiber-Tech™ interior construction to create a line of airbeds that are lighter, stronger, and more comfortable than an average airbed. With “PremAire®”, Intex has combined our manufacturing technologies with our engineering strengths of Fiber-Tech™ to bring you the most innovative, luxurious, and comfortable bed in the market today.

Our Comfort Rest® line of airbeds consists of four series designed to meet all of your customers' needs: the “Dura-Beam® Standard Series” offers a line of durable and comfortable airbeds with attractive opening price points. “Dura-Beam® Plus Series” features a wide variety of luxurious premium quality raised airbeds. Each airbed has been engineered and tested to provide you with superior functionality that guarantees the ultimate sleeping experience. Our top-of-the-line “PremAire® Airbeds” bring a new level of luxury and innovation to our collection. Elegantly designed with puncture resistant laminated PVC exterior, plushy pillow top and superb structural durability, PremAire® Airbeds bring you and your guests unparalleled comfort. The “Multi-Use / Camping” series is engineered for camping, travel, and all-around rugged use, with beds perfectly suited to the outdoor environment. And for the young at heart, our “Air Furniture” series comes with bright colors and fresh design concepts, guaranteed to attract a loyal following of young adults! Ask your Intex representative for any of our product catalogs – we are confident that you will agree that Intex's product line is unmatched in meeting your needs.

Commitment to Excellence

Intex's Commitment to Excellence encompasses every single product that leaves our factory. We achieve this by maintaining the highest levels of quality assurance — such as inflating and testing every single airbed to ensure the Air Lock® guarantee. It's that simple.

100% of our products are quality tested to be air tight before they leave our factory.

In today's rapidly evolving and highly competitive environment, this translates into a total commitment to product quality, including conformity to all relevant safety & quality regulations and standards. Examples include:

- EN 16927, safety and test methods for mini pools (European standard)
- EN 16582, safety and test methods for domestic swimming pools other than mini pools (European standard)
- Regulation (EC) No.1907/2006 "Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)"
- EN 71 "Safety of toys" (European standard)
- EN 13138 "Buoyant aids for swimming instruction" (European standard)
- EN15649 "Floating leisure articles for use on and in the water" (European standard for air mats, lounges and other similar items)
- EN 60335-2-41 "Safety of household and similar electrical appliances, particular requirements for pumps" (European standard for water pumps)
- ISO 6185-1 "Inflatable boats" (International standard for Sports Boats)
- NMMA-ABYC (USA standard for hi-end sports boats)
- ASTM F963 "Standard Consumer Safety Specification for Toy Safety" (USA toy standard)
- ANSI/APSP-4 "AGP standard" (USA standard for above ground pools)
- CPSIA "Consumer Product Safety Improvement Act" (USA regulation of consumer and children's products)

- ASTM F2666 "Small pools standard" (USA standard for pools under 36" water depth)
- UL1450 "Electric inflators" (USA standard for electric inflators)
- UL1081 "Swimming pool pumps, filters and chlorinators" (USA standard)
- UL1563 "Electric Spas" (USA standard for Spa)

Intex's Commitment to Excellence extends to helping our environment and supporting the ecosystem. It begins with product design. Intex's filter pumps operate on much lower amps than most filter pumps in the market, reducing electricity consumption. Our saltwater systems clean pools using only natural salt, eliminating the ongoing need for environmentally unfriendly packaged chlorine.

Intex also operates one of the most comprehensive recycling programs in the industry. We are one of the earliest companies in China to successfully obtain a license to ship consumers' returns in the original package back to China to be recycled. Therefore, used materials and product returns are prevented from going to landfills and instead re-used in the manufacturing process where up to 10% of annually produced PVC is recycled.

Intex designs all of our own packaging for our products. We constantly challenge our methods of packaging to improve

efficiency and reduce waste. More compact packaging techniques save cardboard while cutting down on space utilization, saving freight and fuel consumption.

As a manufacturer, Intex knows it has a responsibility to manage the amount of waste produced. As an employer of over ten thousand people, we also encourage our own employees to recycle, reduce waste, and be conscious of the environment. Starting from recycling corners for all our worldwide office facilities, our Factory has worked with the local government as well as through sponsorships with key partners to strengthen our efforts to be more eco-friendly. Intex has worked to provide incentives and seminars to employees as well as setting targets to reduce energy consumption. In addition, Intex has made significant investment in technology to achieve these goals. For example, we have implemented a frequency converter system which converts diesel to natural gas, installed solar water heaters and set up a recycled sewage system, and invested in equipment that reduces gas emissions.

From product design, to more efficient processes that save energy and reduce waste, to a world class recycling program, to more energy efficient offices, the people at Intex are striving to provide the best value products anywhere while constantly keeping our global ecosystem in mind.

INTRODUCING
FIBER-TECH™ TECHNOLOGY
 by **INTEX®**

Designed for Comfort
 Engineered for Durability

High-Strength Polyester Fibers

Fiber-Tech™ Interior Construction

I-Beam Interior Construction

An Incredible Night's Sleep Starts With a Single Thread...

CONTOURED SUPPORT SYSTEM

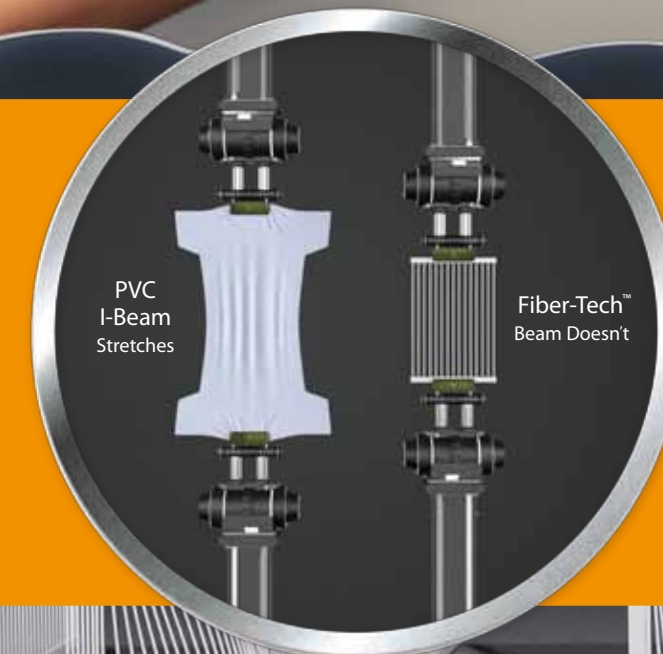

Our innovative, patented Fiber-Tech™ Technology airbeds are comprised of thousands of high-strength polyester fibers. Unlike traditional airbed construction, these high-strength polyester fibers do not stretch over time, resulting in amazing durability for years of lasting comfort. Fiber-Tech™ interior construction provides the ideal firmness for superb support and rejuvenating sleep.

FIBER-TECH™
 TECHNOLOGY

Standard interior construction has been enhanced with lightweight, high-strength fibers for amazing durability and comfort!

U.S. Patent No. 8,562,773 and U.S. Patent No. 9,156,203

PVC I-Beam Stretches

Fiber-Tech™ Beam Doesn't

Great Sleep Made Simple

Our Dura-Beam® Standard airbeds with Fiber-Tech™ Technology are perfect for short-term usage while providing an affordable sleep solution to any indoor or outdoor occasion. The Dura-Beam® Standard airbeds feature Fiber-Tech™ interior construction with vertical beams with a bed height ranging from 10 inches to 20 inches high from the floor, making it easy to get in and out. This airbed is ideal for traveling, camping, and for accommodating overnight guests.

MULTI-USE

Enjoy the Great Outdoors

Intex knows that disconnecting from the pace of modern life doesn't mean giving up comfort. Intex Camping Airbeds have all been specifically designed to provide an uncompromising level of style, durability, comfort, and ease. Intex Camping Airbeds come in a variety of shapes, sizes, and styles to suit nearly any outdoor adventure.

DOWNY AIRBED

This airbed has a flocked top that provides a more comfortable sleeping surface. Its unique wave beam construction eliminates uncomfortable surface bumps and provides a flat, uniform sleeping surface. The Downy airbed can be inflated with either the built-in manual foot pump or a regular pump.

WITH BUILT IN FOOT PUMP		Approximate Inflated Size	Case Pack	Case Weight

- Eco-friendly TPU laminated fabric – phthalate-free material
- Hand-held high output lightweight manual air pump
- Duffel bag with handle included

SHELF BOX

FOLDS COMPACTLY

This PVC Free airbed is constructed of laminated TPU, which means it is:

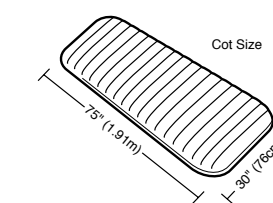

- Super Tough – Softens up the rough outdoors with a very durable, eco-friendly material
- Strong Support System – Inflates up to three times the pressure of a regular PVC junior-twin airbed for a firmer sleeping surface
- Ultra Lightweight – Weighs approximately one fourth less than a common junior-twin PVC constructed airbed

MAXIMUM DURABILITY

The strong TPU (Thermoplastic Polyurethane) laminated material and innovative Fiber-Tech™ inner construction transform the toughest ground into a refreshing night's sleep. It retains elasticity in temperature as low as -4° F/-20° C.

Made of TPU – A PVC-free eco-friendly material

ACCESSORIES

MANUAL PUMPS

#69613 / E Double Quick Mini Hand Pump

- 11½" (29cm)
 - TUV RL approved
 - Inflates on fore and back strokes
- 24 ea, 7.5 lb (3.4 kg)

#69611 / E Bellows Foot Pump

- 11" (28cm)
 - TUV RL approved
 - Inflates and deflates
 - Shrink-wrapped with litho label
- 6 ea, 8.4 lb (3.8 kg)

#68610 / E Giant Bellows Foot Pump

- 50% more air flow than of #69611
 - 12" (30cm)
 - TUV RL approved
 - Inflates and deflates
 - Shelf box
- 6 ea, 13.6 lb (6.2 kg)

#68612 / E Double Quick I Hand Pump

- 11½" (29cm)
 - 3 interconnecting nozzles with hose
 - TUV RL approved
 - Inflates on both up and down strokes
 - Shelf box
- 12 ea, 11.1 lb (5.0 kg)

#68614 / E Double Quick II Hand Pump

- 2 times the air flow of #68612
 - 14" (36cm)
 - 3 interconnecting nozzles with hose
 - TUV RL approved
 - Inflates on both up and down strokes
 - Shelf box
- 4 ea, 6.1 lb (2.8 kg)

#68605 / E Double Quick III S Hand Pump

- 3 times the air flow of #68612
 - 14½" (37cm)
 - 3 interconnecting nozzles with hoses
 - TUV RL approved
 - Inflates and deflates
 - Pumps on up and down strokes
 - Shelf box
- 3 ea, 6.5 lb (3.0 kg)

#68615 / E Double Quick III Hand Pump

- 3½ times the air flow of #68612
 - 19" (48cm)
 - TUV RL approved
 - Large nozzle threaded for athletic ball inflating needle (one included)
 - Inflates athletic balls up to 8 psi
 - Inflates and deflates
 - Pumps on up and down strokes
 - Shelf box
- 3 ea, 9.0 lb (4.1 kg)

U.S. Patent
No. 6,299,420

ACCESSORIES

ELECTRIC PUMPS

Quick-Fill™ AC/DC Electric Pump features include:

- 3 interconnecting nozzles
- 12V DC & AC power adapter for easy Outdoor and Indoor use
- ETL approved (110-120V)
- CE approved (220-240V)
- Shelf box

#66631 (110-120V)
#66632 (220-240V)

Quick-Fill™ DC Electric Pump features include:

- 3 interconnecting nozzles
- Plug into 12V DC automobile cigarette lighter or 12V DC accessory outlet
- ETL approved
- GS, CE approved
- Shelf box

#66626 (12V)

Quick-Fill™ AC Electric Pump features include:

- 3 interconnecting nozzles
- Thermo protector incorporated for safety
- ETL approved (110-120V)
- GS, CE approved (220-240V)
- Shelf box

#66619 (110-120V)
#66620 (220-240V)

Quick-Fill™ High PSI Indoor/outdoor Electric Pump features include:

- 3 interconnecting nozzles with hose
- For both indoor and outdoor use - plugs into cigarette lighter or household electrical outlet
- 2-speed switch
- Inflates athletic balls up to 12 psi
- Detachable DC cigarette cord
- ETL approved (110-120V)
- GS, CE approved (220-240V)
- Shelf box

#68608 (110-120V)
#68609 (220-240V)

#68638

Quick-Fill™ Battery Pump features include:

- 24% more air flow than previous version (#68639)
- Operates on 6 C-cell size batteries
- 3 interconnecting nozzles
- CE approved
- Shelf box

Quick-Fill™ Rechargeable Pump features include:

- 3 interconnecting nozzles
- A 12V DC power adapter for vehicle charging and a household AC power adapter for home charging
- 12V DC to inflate and deflate while recharging
- Automatic over-charge cut off for safety protection
- New shape with easy carry handle
- ETL approved (110-120V)
- CE approved (220-240V)
- Shelf box

#66621 (110-120V)
#66622 (220-240V)

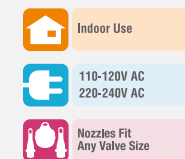

Quick-Fill™ AC Electric Pump features include:

- 3 interconnecting nozzles with hose
- Thermo protector incorporated for safety
- New shape with easy carry handle
- ETL approved (110-120V model)
- GS, CE approved (220-240V model)
- Shelf box
