2023

INTEX is committed to delivering top quality products at a great value with the backing of a responsive Customer Service organization. Our above ground pool line begins with our world famous Easy Set® and Metal Frame pools that are great for families purchasing their first pool, to our upscale Prism Frame™ pools that are an attractive step up, to our deluxe Ultra XTR® Frame pools that are beautiful, incredibly strong and large enough for the whole neighborhood to swim in! And no pool is complete without accessories. That's why INTEX provides a full line, including sand filters, saltwater systems, filter pumps, cartridges and much more that will extend your customers' swimming season and keep them coming back for more. Ask your INTEX representative for any of our product catalogs – we are confident that you will agree that INTEX's product line-up is unmatched in meeting your needs.

The Wide Range of INTEX Above Ground Pools

"It's all in the bubbles"

INTEX'S PATENTED HYDRO AERATION™ TECHNOLOGY IMPROVES WATER CIRCULATION, CLARITY AND FRESHNESS IN THOUSANDS OF ABOVE GROUND POOLS.

HYDRO AERATION™ TECHNOLOGY

WITH HYDRO AERATION™

WITHOUT HYDRO AERATION™

ADVANCED FILTRATION AND CIRCULATION
Injecting air into the water accelerates circulation and joins fine particles into larger clusters that can be filtered more effectively.

IMPROVED CLARITY
Aeration removes minerals like manganese and iron through oxidation for ultimate water clarity.

INCREASED FRESHNESS
More negative ions are generated by activating air bubbles, which improves overall air quality around the pool.

HYDRO AERATION™ TECHNOLOGY

INTEX's patented Hydro Aeration™ Technology is precision engineered to improve filtration, clarity and freshness in thousands of above ground pools. This revolutionary and innovative feature has been incorporated into all our cartridge filter pumps, sand filter pumps, and combination filtration systems.

AERATION IMPROVES CIRCULATION OF WATER SO THAT IT CAN BE FILTERED MORE EFFICIENTLY

AERATION REMOVES MINERALS THROUGH OXIDATION FOR ULTIMATE WATER CLARITY

INCREASED NEGATIVE IONS PROVIDE IMPROVED AIR FRESHNESS AROUND THE POOL

Pump, which promises to keep
pool water crystal clear!

Following the latest color trends in exterior decking and home siding, the Graphite Gray Panel™ Pool offers the appearance of a high-end, custom-built swimming pool at a value you may only expect from INTEX. While the panels have the look of real wood, they are made of high-density plastic, eliminating the need for weather staining or termite protection. Better yet, the Graphite Gray Panel™ Pool is easy to assemble and comes equipped with INTEX's highest-grade pool accessories, including the Krystal Clear® Sand Filter Pump.

KRYSTAL CLEAR® FILTRATION & SANITATION SYSTEMS

INNOVATION IN POOL MAINTENANCE

Swimming pool maintenance plays an integral part in your overall pool owning experience. INTEX understands that the process of keeping your pool water clean can be overwhelming. That is why we have designed and engineered our line of Krystal Clear® Filtration and Sanitation systems to take the leg work out of keeping your pool sparkling clean.

COMBINATION FILTRATION & SANITATION SYSTEMS

SAND FILTER PUMP & SALTWATER SYSTEMS WITH E.C.O. (ELECTROCATALYTIC OXIDATION)

Combines sand filter pump with saltwater system

2 models (Details on page 47)

POOL FILTRATION SYSTEMS

CARTRIDGE FILTER PUMPS

Advantages:

• Cartridges provide excellent water filtration

• Easy to use: simply replace the old cartridge with a new one every 2 weeks

• INTEX high quality replacement cartridges are widely available

• 24-hour auto timer on some models

5 models (Details on page 40-41)

SAND FILTER PUMPS

Advantages:

• All natural sand provides excellent water filtration

• Economical & environmentally friendly

• Requires virtually no maintenance except replacement of sand every 5 years

• 24-hour auto timer included

5 models (Details on page 42-43)

POOL SANITATION SYSTEMS

SALTWATER SYSTEM

Advantages:

• Eliminates bacteria & algae from pool water using a virtually undetectable amount of all natural salt

• Much gentler on skin, eyes, clothes, and hair than packaged chlorine

• Salt is economical & much more environmentally friendly than packaged chlorine

• 24-hour auto timer included

4 models (Details on page 44-45)

SALTWATER SYSTEM WITH OZONE

Advantages:

• Ozone is the most powerful sanitizing method for pool water

• The only 100% natural and biodegradable pool sanitizing agent

• Odorless

• Saltwater system provides residual cleaning action and soft, smooth water for swimmers

• 24-hour auto timer included

1 model (Details on page 45)

POOL FILTRATION SYSTEMS

KRYSTAL CLEAR® CARTRIDGE FILTER PUMPS

Efficient filtration is essential for a quality swim experience, and at INTEX we settle for nothing less than a pristine pool water. INTEX's line of pumps and cartridges guarantee a cleaner pool with:

• Powerful pumps in several of our most popular pool sets
• Filter cartridges with thicker, heavier paper and more pleats
• Water inlet jets for enhanced water flow back into the pool
• 2-year warranty

The results will be faster water circulation, improved filtration, and best of all a superior swim experience!

• Easy installation – just hook-up hoses and plug in
• Double insulated pump
• Air release valve for air trapped inside filter chamber
• Sediment flush valve at bottom of filter chamber (28635/28636/28633/28634)
• Auto timer for easier use (28601EG/28603EG/28637EG/28635/28636/28633/28634)
• Conforms to UL/CSA standards (110-120V models)
• CE approved (220-240V models)
• BV or TUV GS approved (GS designation models)
• Shelf box

KRYSTAL CLEAR® OZONE AND SALTWATER SYSTEM

Professionals Know That The Ultimate Pool Sanitation Method Is Ozone.

Only Ozone provides virtually complete, instantaneous, odorless, all-natural sanitation of pool water. Ozone eliminates bacteria over 3,000 times faster than chlorine. And because it has up to 100 times the oxidizing power of chlorine, it cleans pool water without the chemical smell that swimmers often associate with chlorine.

INTEX has brought this powerful technology together with the benefits of our saltwater system to provide your customers with the very best in above ground pool sanitation. By combining the incredible sanitizing strength of ozone with the great swimming comfort that saltwater systems provide, your customers can enjoy a truly wonderful pool ownership and great swimming experience for years.

A totally effective, odorless, effortless, all natural solution to maintaining crystal clear, soft, clean pool water... from INTEX!

COMBINATION FILTRATION & SANITATION SYSTEMS

KRYSTAL CLEAR® POOLWATER SYSTEM

Sand Filters are one of the most desirable methods to keep pool water clear and sparkling. Not only does the all-natural, inexpensive sand do an excellent job of filtering the water, it needs replacement only once every five years, making sand filter the easiest maintenance filtration option on the market.

Saltwater systems with E.C.O. (electrocatalytic oxidation) are known for their ability to keep pool water clean and safe, while eliminating the harshness of traditional packaged chlorine.

INTEX has combined these two excellent systems into one product, providing above ground pool owners with ONE low cost, low maintenance system that will keep pools clean, safe, and comfortable for swimmers. Both systems are controlled automatically with one 24-hour timer to make daily operation carefree!

COMMITMENT TO EXCELLENCE

In today's rapidly evolving and highly competitive environment, this translates into a total commitment to product quality, including conformity to all relevant safety & quality regulations and standards. Examples include:

- EN 16927, Safety and test methods for mini pools (European standard)
- EN 16582, Safety and test methods for domestic swimming pools other than mini pools (European standard)
- Regulation (EC) No.1907/2006 "Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)"
- EN 71 "Safety of toys" (European standard)
- EN 13138 "Buoyant aids for swimming instruction" (European standard)
- EN ISO 25649 "Floating leisure articles for use on and in the water" (European/ International standard for air mats, lounges and other similar items)
- EN 60335-2-41 "Safety of household and similar electrical appliances, particular requirements for pumps" (European standard for water pumps)
- EN 60335-2-60 " Safety of household and similar electrical appliances, particular requirements for whirlpool baths and whirlpool spas" (European standard for portable SPA)
- ISO 6185-1 "Inflatable boats" (International standard for Sports Boats)
- NMMA-ABYC (USA standard for hi-end sports boats)
- ASTM F963 "Standard Consumer Safety Specification for Toy Safety" (USA toy standard)

- ANSI/APSP-4 "AGP standard" (USA standard for above ground pools)
- CPSIA "Consumer Product Safety Improvement Act" (USA regulation of consumer and children's products)
- ASTM F2666 "Small pools standard" (USA standard for pools under 36" water depth)
- UL1450 "Electric inflators" (USA standard for electric inflators)
- UL1081 "Swimming pool pumps, filters and chlorinators" (USA standard)
- UL1563 "Electric spas" (USA standard for Spa)
- DOE Energy Conservation Standards for Dedicated-Purpose Pool Pumps

INTEX's commitment to excellence extends to helping our environment and supporting the ecosystem. It begins with product design. INTEX's filter pumps operate on much lower amps than most filter pumps in the market, reducing electricity consumption. Our saltwater systems clean pools using only natural salt, eliminating the ongoing need for environmentally unfriendly packaged chlorine.

INTEX also operates one of the most comprehensive recycling program in the industry. We are one of the earliest companies in China to successfully obtain a license to ship consumer's returns in the original package back to China to be recycled. Our manufacturing waste repurposing program prevents used materials and scraps from going to landfills and instead they are re-used in the manufacturing process where up to 10% of annually produced PVC is recycled.

INTEX designs all of our own packaging for our products. We constantly challenge our methods of packaging to improve efficiency and reduce waste. More compact packaging techniques save cardboard while cutting down on space utilization, saving freight and fuel consumption. As a manufacturer, INTEX knows it has a responsibility to manage the amount of waste produced. As an employer of over ten thousand people, we also encourage our own employees to recycle, reduce waste, and be conscious of the environment. Starting from recycling corners for all our worldwide office facilities, our factory has worked with the local government as well as through sponsorships with key partners to strengthen our efforts to be more eco-friendly. INTEX has worked to provide incentives and seminars to employees as well as setting targets to reduce energy consumption. In addition, INTEX has made significant investment in technology to achieve these goals. For example, we have implemented a frequency converter system which converts diesel to natural gas, installed solar water heaters and set up a recycled sewage system, and invested in equipment that reduces gas emissions.

From product design, to more efficient processes that save energy and reduce waste, to a world class recycling program, to more energy efficient offices, the people at INTEX are striving to provide the best value products anywhere while constantly keeping our global ecosystem in mind.

ALL ELECTRICAL ACCESSORIES:

- Conforms to UL/CSA standards (110-120V models)
- CE approved (220-240V models)
- TUV-GS approved (GS designation models)

As a part of our program of product development and improvement, the detail specifications of the products shown in this catalog may be changed. For current specifications on any product, please contact your supplier of INTEX products.

INTEX introduces three additional designations in our catalog that highlight additional safety features that are included on a number of our pools. These designations are:

EG Pools with these letters after the 5-digit item code incorporate a GFCI (ground fault circuit interrupter) built into the filter pump. The GFCI unit is an added safety feature and is designed to instantly shut the pump off if electrical current comes into contact with water. GFCI units are included in all 110-120V filter pumps and saltwater systems.

EH Pools with these letters after the 5-digit item code feature ANSI/APSP-16 certified dual suction outlets in accordance with the latest ANSI/APSP-7 standard for Suction Entrapment Avoidance and the U.S. Pool and Spa Safety Act, and provide improved water circulation. These pools also feature pumps with an integral GFCI.

GN/GS Pools with the GN designation after the 5-digit item code either incorporate an RCD built into the 220-240V filter pump, or contain filter pumps that operate with a 12V step-down transformer, which reduces the voltage dramatically while retaining the same performance level as the 220-240V version. Both are designed to meet special national requirements in some EU markets.
